EDUCATION

CUNY Baruch College

May 2022

BBA Information Risk Management and Cybersecurity, Minor in Graphic Design

- **Relevant Coursework:** Web Design, Data Analytics with Python, Cybersecurity, Ethical Hacking, IT Audit, Computer Networking, Computing with C++, Database Management Systems
- **President and Co-founder** of Baruch Afghan American Club (AAC)
- Member of Baruch ISACA Cybersecurity Club
- Member of Phi Theta Kappa Honors Society (ΦΘΚ)

WORK EXPERIENCE

Baruch College Subotnick Financial Services Center — *College Assistant* — New York Aug. '21 - May '22

- Aided in IT troubleshooting during daily activities or corporate events resulting in higher confidence in the reliability of IT assets
- Facilitated weekly maintenance of devices containing the Bloomberg Terminal which led to a drastic decrease in launch failures
- Assisted the center with daily tasks involving physical security and data protection

CVS Health Digital Accessibility Internship — *11y Engineering Intern* — New York Jun. - Sep. '21

- Engaged in Agile and Scrum methodologies, the implementation of SAFe and WCAG compliance as well as accessibility testing for app/web development
- Utilized Rally (project management tool) to facilitate daily testing of web accessibility features and defect reporting which ensured the delivery of features in a timely manner
- Participated in the SDLC of the CVS pharmacy login page
- Took part in an effort to find a solution to CAPTCHA security accessibility

CUNY Research Scholars Program — *Student Researcher* — New York Mar. - Jul. '19

- Worked with a team to develop a Python command-line program for Unix-like systems that can quickly and accurately search for and sort the many genomes in Staphylococcus aureus
- Created an Excel database of all Staphylococcus aureus genomes used in the research
- Took part in publication of a research paper detailing the results of our study
- Presented the results at a symposium held at CUNY John Jay
